

"Advancing with Composites 2012 Symposium "

Chairman: Prof. I. Crivelli Visconti

with endorsement of:

Venue: Centro Congressi Federico II
Via Partenope 36 Naples
October 18th 2012

Within "NAV 2012" (17th International
Conference on Ships and Shipping
Research, Naples October 17/19 2012)

CALL FOR PAPERS

NAV 2012 international conference will be held in Naples, Italy from 17th to 19th October 2012, organized by ATENA (Italian Association of Marine engineering) in collaboration with the University Federico II and the University Parthenope.

This is the 17th edition of the Conference, which began in 1974 and today is one of the most important occasions, internationally recognized, to update the state of the art of research and innovation in the naval and maritime transport.

Within the NAV 2012 a special Symposium of the series **ADVANCING WITH COMPOSITES** has been organized by the italian CENTRO MATERIALI COMPOSITI, entirely dedicated to the following topics of Composite Materials in the Naval and Marine sectors:

- Innovative Fabrication Technologies
- Application of Advanced Composites
- Naval Composite Design
- Composites, Durability and Reliability
- Extreme Sailing Applications
- Off - Shore Applications

"Advancing with Composites 2012 Symposium "

Venue: Centro Congressi Federico II
Via Partenope 36 Naples

NAV 2012 Conference registration includes participation to the Composite Symposium.

Details of Registration procedure, hotel and venue directions, social events will be available on line at the Atena web site dedicated address:
www.atenanazionale.it/nav

Abstracts for "AwC 2012 Symposium" are welcome till the end of february 2012
